RE: RM-9260, Petition for rulemaking for "Class A" TV service.

Dear Sir:

I am in favor of rulemaking (RM-9260) to protect low power television stations. As an independent low power television station operator in Salem and Portland, Oregon, we are limited to 1000 watts and 100 watts respectively. Our stations have been on the air for seventeen years, seven days a week, twenty-four hours a day serving Salem and Portland, Oregon. Many of our viewing audience are elderly and retired and are unable to afford cable television.

It has been very difficult competing with full power stations and cable, yet because of local and selective programming, and an austere budget, we have managed to stay on the air. I know we are doing a great community service by the letters we receive from our viewers thanking us for being on the air.

We will be truly grateful for your favorable action on the rulemaking (RM-9260). Thank you.

Sincerely,

Richard C. Synowski, D.D.S.
President

Dear Sir:

I am in favor of this rulemaking (RM-9260) to protect low power television stations. Communities benefit from the "small town" station where local residents can have a voice.

Comments in Support of
RM-9260, Petition for Rulemaking for Class A TV Service

May 20, 1998

Dear Sirs:

As a frequent viewer of LPTV Stations 35, in Des Moines, IA and 52 in Ames, IA, I would like to express my strong support for **Petition for Rulemaking for Class A TV Service, RM-9260**. These stations provide a much needed service to my local community, and have lately been very unsure of their continued existence, due to the impending DTV channels usurping their channels. If they were given the protection this petition would provide, they would be in a much better position to continue to provide the valuable programming that that is an important part of my day.

Sincerely,

Garry L. Stoner
